Cecil Shinneberry, the 14-year old son of E. P. Shinneberry at Cloverlick came near laying low a large eagle last Tuesday. The eagle had been carrying away a number of Sam Hannah's lambs lately and the lad seeing the bird coming in the direction of his father's place got his gun and awaited for him. When within about sixty yards he fired a charge of No. 2 buckshot into the bird but it failed to bring him to the ground although from the manner of the eagle's flight it was seen that he was hard hit.

## VICTORY FOR MARLINTON.

First Game of the Season Won on Marlinton Diamond by Local Team.

Lewisburg received a big goose egg at the hands of the Marlinton baseball team in the first game of the season played on the home grounds last Saturday afternoon, the score standing at the close of the first half of the ninth inning 10 to 0 in favor of Marlinton. It was a great game and all who were present were surprised at the work of the local team. All feel confident that we have a team this year that can make a good showing with the best of them. Lewisburg was the admitted champion team of this section of the state last year and in the game here Saturday they were strengthened by Boone, C Rowe and H. Rowe, of the Alderson team. Jones, the Marlinton pitcher,

Hits were made by Jones, Broadbush, Gibson (2), Yeager, S., Wallace, Guilford (3), and Yeager, P.

Runs were scored by each of the following: Livesay, Broadbush, (2), Gibson (2), Yeager, S., Wallace, Guilford, Yeager, P. (2).

A return game will be played at Lewisburg on Saturday, May 4th.

these young gentlemen are in the senior class which numbers seventy-three.

1118

A game of baseball is being arranged between the Marlinton and Alderson teams to take place on the grounds here between the first and tenth of June. As Alderson has a very strong team and Marlinton's team is considered no slouch this season a good game may be expected.

All persons wishing to take part in the tournament here on July 4th should confer with J. L. Wallace, chairman of the Tournament Committee.

Williams there, is in looking this week with several assistants looking up the records of a tract of 60,000 acres which this firm will survey this summer. The land lies along the Buckhannon river and we understand it is a fine body of timber. Work will begin as soon as looking up the records is completed.

Dr. Clyde Y. Beard, practicing physician at Dunlevie, we learn from the Weston Independent, has purchased the practice of Dr. Kennedy near Weston. Dr. Kennedy will be ready to vacate on the 15th. Dr. Beard has been practicing for the past two years at Dunlevie and has bright prospects before him. His neighbors will be sorry to hear that he is to remove from among them.

The Marlinton baseball team will cross bats with a team from camp Greenbrier tomorrow afternoon. This camp is located on the old fair ground, a mile above Alderson, and the team is one of the best in the Greenbrier valley. The players are selected from a number of young men from Baltimore, Washington, Staunton and other points who have been spending their summers at this camp for the past several years. A good game may be expected.

An informal banquet was tendered the members of the Marlinton Fire Department last Saturday night at the temporary court house by the members of Hose Co. No. 2, who won the hose race and the \$50 prize July 4th. Refreshments were served and a friendly time

paid his taxes. The entering of his name on the delinquent list was a mistake by reason of the sheriff not knowing the person named.

Three games of amateur baseball were witnessed this week here and at Campbelltown. The Marlinton second team defeated the second team from Campbelltown in two games. In the first game the score stood 14 to 13, and the second stood 11 to 9. The single men defeated the married men Wednesday by a score of 22 to 8.

Withrow McClintic reports a wild animal breaking up a setting turkey hen at his place near Buckeye a few nights ago and destroying thirteen eggs. The next night he put two eggs out containing poison but the animal did not put in its appearance. The two eggs containing poison were taken up and destroyed. The next night the animal again made his appearance and destroyed a brood of several young turkeys and the next night returned and carried away the hen. The following morning the turkey hen was found dead some distance from the house and by its side a coon also dead. The cause of the coon's death is a mystery, but death is supposed to have resulted from becoming overheated in dragging the hen up a hill near where it was found. The coon had had only three legs, the other having been cut off some time ago and was completely healed over.

**Bad Burn Quickly Healed.**

"I am so delighted with what

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year. When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. PRICE, 25c. LARGE SIZE, 50c.

## What Changes Time

The kittens that saw the light of Hoo Hoo land were Hubert "Protented" Echols, assistant cashier of the Bank of Marlinton and a member of the firm of Hunter and Echols, real estate and insurance dealers, Marlinton, William McKinley Funk, manager of the Red Lick Lumber company, and also a member of the firm of Funk Brothers, contractors; Hubert Sogon Gravely, salesman, of Charleston; Edward William Guilford, wholesale lumber, part owner and superintendent of the Marlinton hospital, Marlinton; Benjamin Hodges, salesman, of Richmond, Edgar Houston Williams, member of the firm of Williams Brothers, civil engineers and real estate dealers.

After the session in the garden closed every one repaired to Marlinton Hotel where a fine dinner was served in most elegant style. A. D. Williams, of Marlinton, was toast master and led the evening to the satisfaction of all present. Among the excellent speeches those that deserve special mention are by Stover, M. H. Hawkins, a well known newspaper man, agent and at present oil man, made a hit but the best of the evening are undoubtedly Dr. E. W. Guilford, who said he was admitted into the profession having once doctored a man who died. W. H. Contractor, builder, lumberman and politician did credit to himself. James Paris struck the note of the evening when he mentioned the name of E. Boggess, of Clarksburg, the mark of the Universe and that every one attend the Atlantic City on Sept. 1907 to promote the in-

their salaries aggregating \$1,795,645.70.

#### Greenbrier Speckled Trout.

The speckled trout of Greenbrier and Pocahontas counties are of the firmest texture and supply the most delicious eating in the world, says the West Virginia News. The black bass are an extra fine game fish, affording rare sport to fishermen and an attractive and enjoyable course on any bill of fare, but they are second to trout. Many fish become tainted in an hour or two after death, owing to their loose texture, but trout are exceptional in this respect. As an illustration, W. H. Cackley relates that some years ago when he was sheriff of Pocahontas county, his deputy, Dick Hill, caught some extra nice trout in Elk and wishing to get them to Dunmore he cleaned them, wiped them dry, wrapped them in paper, put them in his saddle-pockets, and rode 16 miles on a hot August day, arriving some twelve hours from the time of starting, when the fish were found to be as firm and fresh as when taken from the water. It is quite certain that any other variety would have been rotten. The cold mountain streams and the extraordinary activity of trout combine to produce a close fibre which resists decay to a remarkable degree.

#### Copperhead in His Pocket.

John J. Barrick, employed by the Parsons Pulp Paper Company, met with a very strange and singular experience Wednesday a week. During the high water and excitement, he hung his coat in the dynamo room. A large copperhead snake, presumably seeking a place to sleep,

Pa., followed up Jackson's and Dunlap's creek and on the Knobs in Monroe which still bear his name down into the Wolf Creek and entered his hatchet and cut his name on a tree near a spring now owned by heirs of Cornelius Leach. When he came back he decided about 300 yards farther what is known at present as "Conner Spring." In the house of his son, Michael Swope on the 27th day of Sept. 1753. Strange as it may seem that house has been occupied ever since in a splendid state of preservation. An older son of his who was born August 1 and who was the grandfather of the writer) was stolen captive there by the Indians the year 1756 at the age of and kept by them until. There is no doubt about Swope being the first child born in southern West Virginia not in the state.

There was some among the older inhabitants traditional history that a girl baby born to a settler that was the first child born in the new state but, if so, who she was she was born has been lost.

David Tygart and settled in West Virginia File near Beverly, and the valley which still bears his name.

Between the years 1761 more than 100 families settled in Greenbrier county on Muddy creek and near Lewisburg.

In the autumn of 1761 warriors came to

may live to a ripe age and enjoy many more happy years with his children and grandchildren. — Buckhannon Republican.

A new method of bass fishing was discovered this week by one of our local fisherman. While fishing along Knapps creek he discovered an ingenious youth with a fig string of bass which he had caught at the reunion grounds. This young disciple of Isak Walton would get in a pool where there were a number of bass and scare the fish under shelving rocks. Then with a four foot line baited with a crawfish he would go up close to the rock and drop his bait by the side of the rock under which the bass had taken refuge. The crawfish would crawl up under the rock and the bass would readily take it. A good hard pull and the fish was landed. This is rather an unsportsman-like method but it will get fish for the pot every time. The youth had twenty-one on his string ranging from ten to fourteen inches.

years and now holds a position at the Bank of Marlinton. He made many friends while here and is a most excellent young man. The bride is a very attractive young lady and was highly respected in the community in which she lived.
